DESIGN EXPLANATION: PNHS SCHOOL ART FAIR 2026

My digital poster promotes the PNHS School Art Fair 2026, with the tagline “Where Imagination Meets Expression.” Its purpose is to encourage students to appreciate art and express their creativity. I used a cream background with brown, mustard yellow, coral, and teal accents to create a warm and artistic atmosphere. I also included a photograph of the PNHS covered court to show the event venue and used art-related illustrations, such as paintbrushes and a palette, to represent creativity. The date, time, and venue are arranged clearly so viewers can easily understand the event details.

APPLICATION OF 7 DESIGN PRINCIPLES

1. **Balance:** I distributed the photograph, text, and decorative elements throughout the poster to create a balanced composition.
2. **Emphasis:** I made “School Art Fair 2026” prominent to attract attention and establish the main subject of the poster.
3. **Pattern, Repetition, and Rhythm:** I repeated paint splashes and decorative strokes in different areas to create visual rhythm and consistency.
4. **Alignment:** I arranged the event information in an organized manner, using icons and consistently positioned text to make the details easier to read.
5. **Hierarchy:** I organized the information according to importance, from the event heading and title to the tagline, schedule, venue, and closing message.
6. **Contrast:** I used dark brown text against a light cream background and incorporated brighter colors to make important elements stand out.
7. **Unity and Harmony:** I used a consistent color palette, artistic illustrations, and complementary fonts to make all the elements work together.
